Hidden Vent on select frames

LOOKING FOR "ALL GLASS, NO KICKPLATE, HIDDEN SCREEN"?

Start with the True-View 3/4 Lite with Hidden Vent.

MAKE IT FUNCTIONAL. MAKE IT YOURS.

Hidden Vent = airflow without a permanent visible screen.

The screen retracts into a top cartridge and appears only when the operating sash is opened.

HOW IT WORKS

- 1 Open sash**
Screen drops into place.
- 2 Ventilate**
Enjoy airflow with a clean exterior look.
- 3 Close sash**
Screen retracts into the top cartridge.
